

ECL 2 Arduino Project'20 Proposal

PH 2021- ELECTRONICS & COMPUTING LABORATORY II

Department of Physics, University of Colombo

Name:

Reg. No:

Index No:

Subject Combination:

1. Project Name

--

2. Executive Summary

The Executive Summary is a short, precise summary of your project proposal. Please ensure to include a brief outline of your project description and how your project is useful to the society.

3. Functional Description

Functional Description is a brief content explaining the functionalities of the project. Outline the working principles of the project.

4. Block Diagram

Draw a complete block diagram specifying the components used in the project. You may represent it as a flow diagram if needed.

5. Budget

Component Name	Functionality	Cost Per Component	Number of Components	Cost Estimation

*No need to put basic components such as Arduino Uno, Breadboard in the budget.
